

Our high-tech company is looking for a dynamic personality as

Service Manager, USA

J. SCHNEEBERGER Maschinen AG develops and produces state-of-the-art CNC grinding machines with integrated robotics for the manufacture and regrinding of cutting tools and the production of a wide range of precision parts.

J. SCHNEEBERGER Maschinen is represented in all important markets by its own sales and service branches or qualified partners. Customers include companies from tool manufacturing, the automotive industry and its suppliers, general mechanical engineering, the aerospace industry, energy technology and contract manufacturing.

What you can achieve with us:

- Support service technicians and customers with repair questions and technical questions
- train service technicians and customers on maintenance procedures.

What we would like from you:

- a bachelor's degree, or equivalent, in Mechanical Engineering or Industrial Engineering
- 12 months experience as a Service Manager.

What you can expect from us:

- A varied, interesting and independent role in a family business with uncomplicated communication and decision-making channels

Location of employment:

- Northwest suburban Chicago location, with travel as required to customer locations around the U.S.

Are you an open-minded, resilient and humorous person with a high service orientation who would like to get involved in the field of mechanical engineering? Then we look forward to getting to know you!

Please mail your resume to:

- General Manager, J. Schneeberger Corp., 1160 Abbott Drive, Elgin, IL 60123.
